Chapter 1

Introduction

Pharmacy Duty Roster (PDR) is a web application that allows to operate a duty roster for pharmacies. PDR started in 2015 as an alternative to a really simple excel sheet without formulas. PDR aims to be user-friendly but at the same time cover all necessary features. PDR continuously strives to improve. It is open to your requests and wishes. I hope it will fulfill your expectations.

1.1 Getting PDR

1.2 Reporting bugs

1.3 How to contribute

Chapter 2

User manual

2.1 The web interface

You can connect to your PDR instance using any web browser. Just navigate to your server and enter your username and password.

2.1.1 Navigation

By default, the PDR web interface opens to your a menu containing 5 tiles. You can navigate to:

- Roster week table view
- Roster daily view
- Roster employee view
- Overtime
- Absence

The navigation bar

In the top there is a navigation bar containing hyperlinks to nearly all the pages of PDR.

Chapter 3
